Summary

Computer Science student at Damanhour University, passionate about IT, Web Development, Cloud Security, and Mobile App Development. Ambitious, hardworking, and eager to grow within the technology sector.

Education

Damanhour University **Oct 2024 – June 2028**

Bachelor of Science in Computers and Information *Damanhour, El Beheira*

Relevant Coursework

- Networking
- Entrepreneurship
- Web Design
- Java Programming
- Flutter Framework
- Cloud Computing

Experience

Computer Science Student **El Beheira, Egypt**

- Actively participating in technical events, hackathons, and student competitions focused on software development and IT.
- Collaborating with peers on university and personal projects specializing in web development.
- Attended the Techne Summit Conference at Bibliotheca Alexandrina, participating in tech sessions and networking with industry professionals.
- Joined the ITI Flutter Mobile Development track and developed a functional mobile application using Dart and Flutter.
- Completed professional certifications including: NVIDIA Deep Learning, Shell & Flat6Labs Project Management, Cisco Networking Basics, Introduction to Cybersecurity, and Endpoint Security.
- Participated in workshops covering cybersecurity, AI, and Full-stack development to enhance practical technical skills.
- Motivated student with hands-on experience in front-end technologies including HTML, CSS, JavaScript, and Java. Currently focusing on Python and AI development.

Projects

Codeleab – Online Programming Learning Platform | *HTML, CSS, JavaScript*

- Developed a comprehensive website designed to teach programming fundamentals to beginners in an interactive and structured manner.
- Designed user-friendly interfaces and implemented responsive design for both desktop and mobile platforms.
- Aimed at making coding accessible to students and newcomers interested in web development.

Green Link – Environmental Hackathon Project | *HTML, CSS, JavaScript*

- Participated in a hackathon to build a platform focused on connecting eco-friendly initiatives.
- Developed the frontend with a focus on clarity, accessibility, and real-time user interaction.
- Designed to raise environmental awareness and promote sustainable digital solutions.

Portfolio App | *Flutter, Dart, REST API*

- Developed a mobile application to showcase a personal portfolio, highlighting skills, projects, and experiences.
- Designed an interactive, user-friendly interface for seamless navigation and clear information presentation.
- Serves as a professional digital resume for recruiters and potential collaborators.
